Company profile

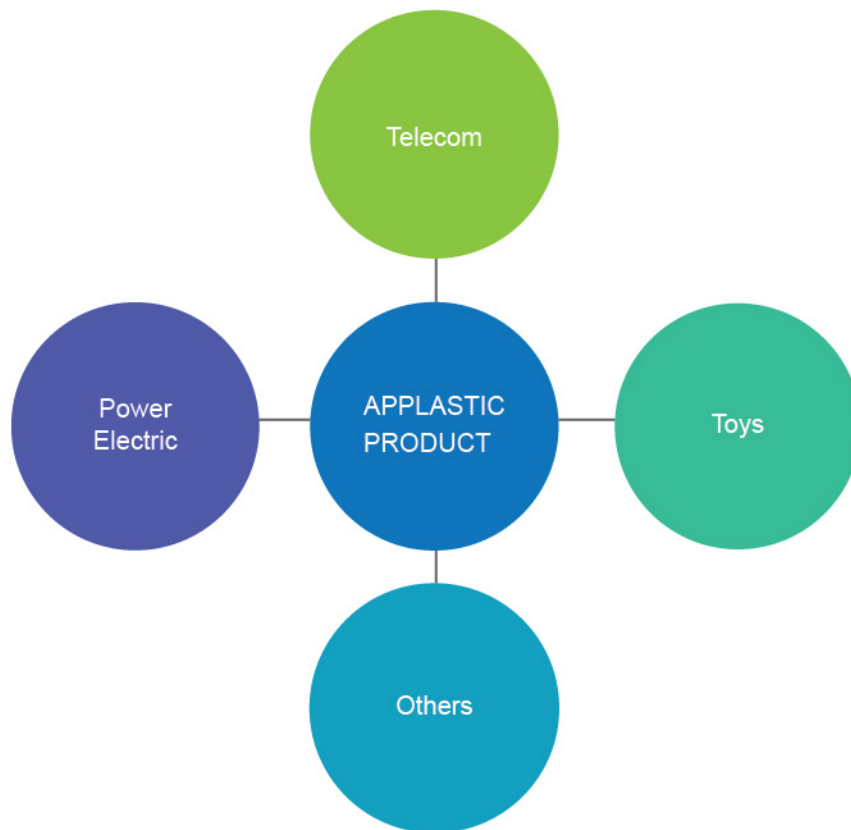

AP is known as one of the first companies to design and produce plastic products for the main industry

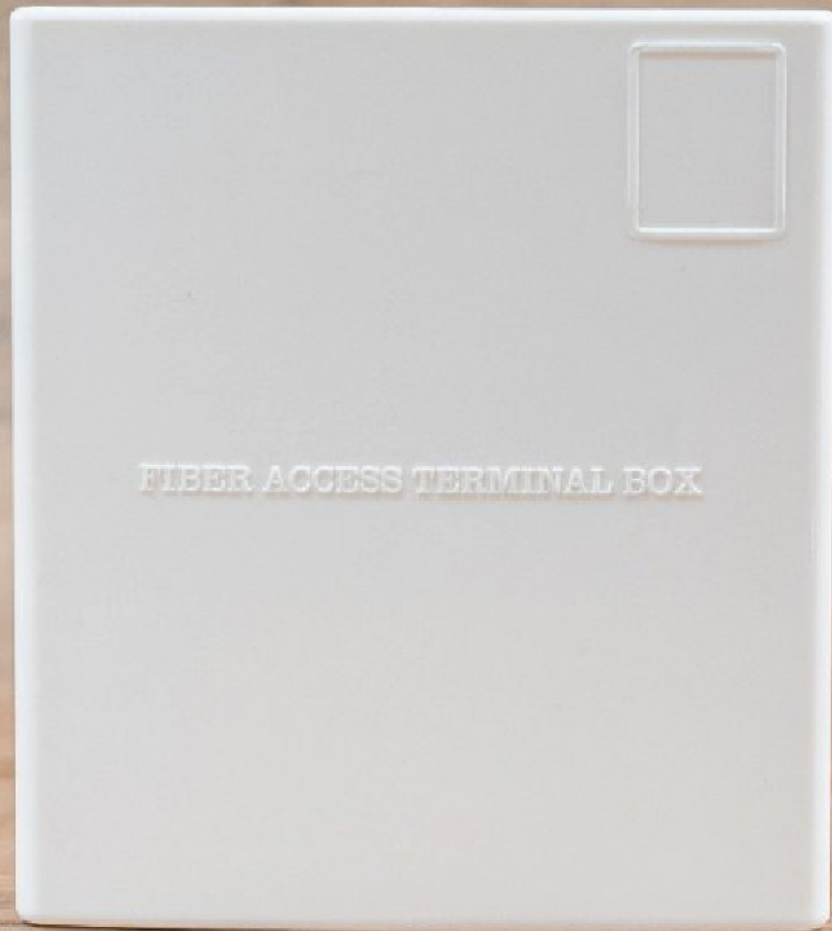

1. Telecommunications: optical closure, internal and external optical distribution box, plastic details, plastic box for GPS...
2. Electricity: Spacer, electrical equipment protection box, plastic accessories...
3. Children's assembly toys, beads and hair ties, etc.
4. Other products upon request.

- Quickly respond to customer requests, simplify procedures - fast delivery - sharp products with long-term warranty. AP is popular with customers.

Why have AP?

AP was established because its members wanted to create beautiful, useful products for the community, compete with imported goods and contribute a small part to improving the level of Vietnam's manufacturing industry.

Telecommunications Products

Optical Fiber Closure

Optical distribution box plastic for inside and outside.

Plastic details.

Plastic boxes for GPS

.....

Feature Products

ODF mini inside is used for telecommunications infrastructure networks, internal networks.... Compact size, solid, suitable for FTTH solution. Structure conforms to international standard ITU, for single-mode, multi-mode optical subscriber wiremode. Used for direct connection or branching of fiber optic cables in the home, where to protect the fiber optic splice as well as to reserve the fiber optic cable.

Material ABS
Dimension H - 97, W - 86, D - 23mm
Weight 80g
Max 2FO
Model No mODF - 02FO

Material ABS
Dimension H - 140, W - 116, D - 30mm
Weight 100g
Max 4FO
Model No m2ODF - ...FO

Material ABS
Dimension H - 150, W - 110, D - 30mm
Weight 150g
Max 4FO
Model No m1ODF - ...FO

Material ABS
Dimension H - 330, W - 190, D - 110mm
Weight 1.900g
Max 96FO
Model No M2ASPC - ...FO

Feature Products

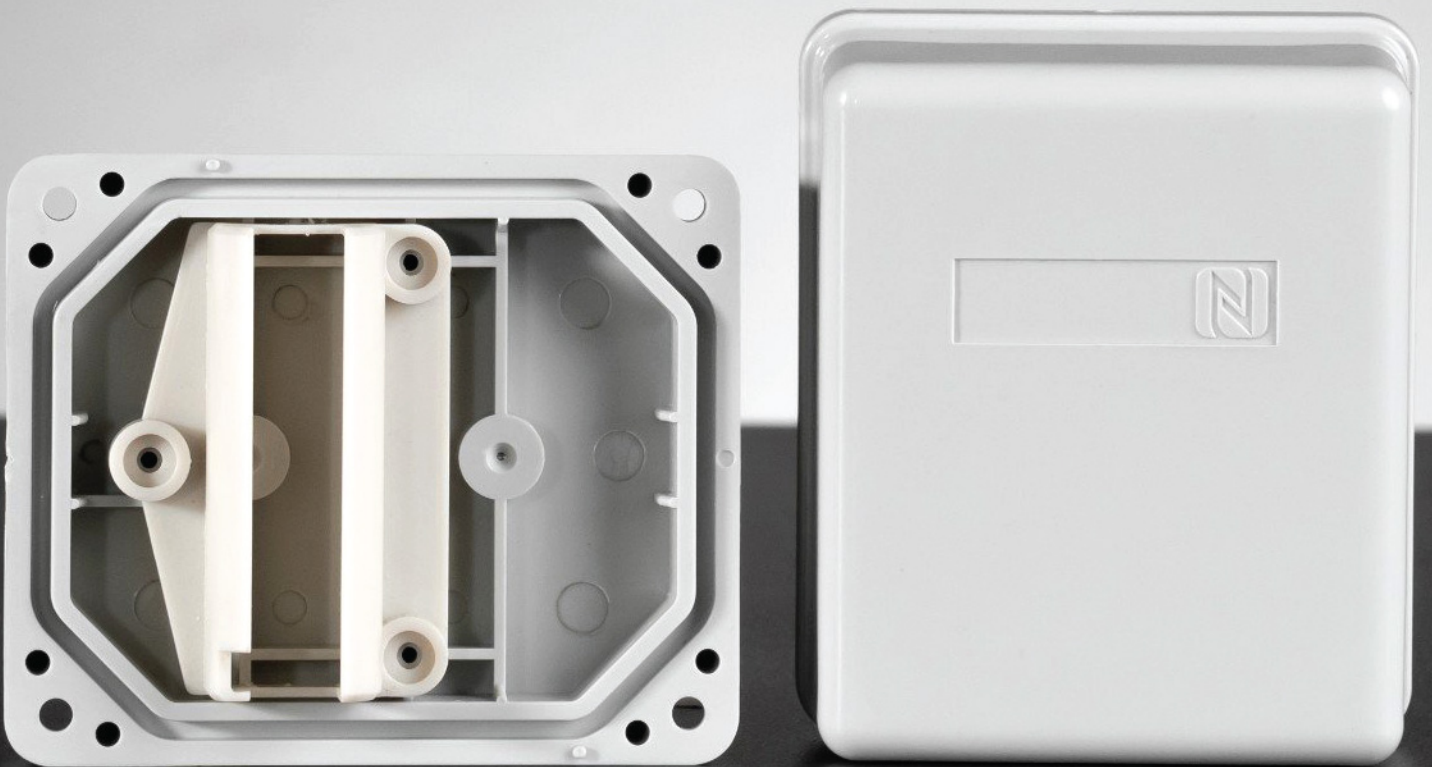

AP optical closure is designed to protect splicing points of cables in networks. Consisting of cover and bottom halves, this compact-sized closure provides easy and fast splicing with perfect waterproof at distribution node or access cable system. Especially when there happens fiber cut on existing cable line, it would be useful for fast recovery with low installation cost.

Material ABS
Dimension H - 400, W - 170, D - 72mm
Weight 1.400g
Max 48FO
Model No M2APC - ...FO

Feature Products

GPS Device protection Box

Material ABS
Dimension H - 90, W - 75, D - 40mm
Weight 150g
Max 12FO
Model No m1GPS

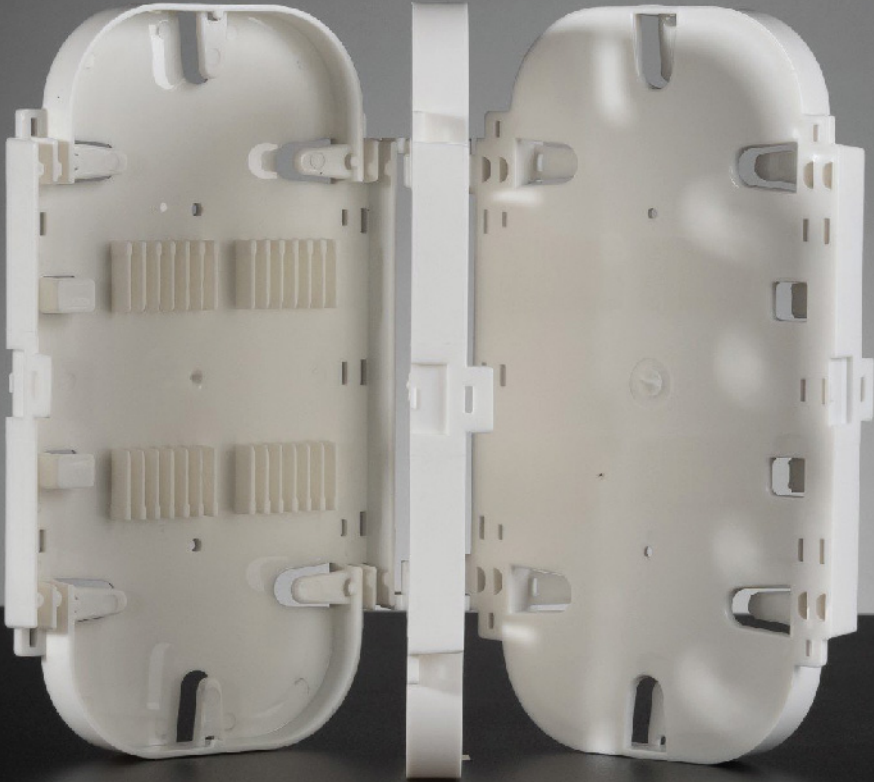

Feature Products

5 Markets we serve.

Telecommunication:

Our products are used to protect optical fiber and fiber optic joints. Ensure continuous transmission. GPS protective cases are guaranteed for 20 years in all environments.

Electric power:

CB protection boxes are used to protect CBs for residential infrastructure networks, buildings, and electrical cabinets. The 15kv Space product is used to construct 3-phase transmission lines very quickly and economically

Food storage

Plastic containers serve the needs of storing a variety of foods. Our products are designed for harsh environment conditions and ensure long life

Agriculture:

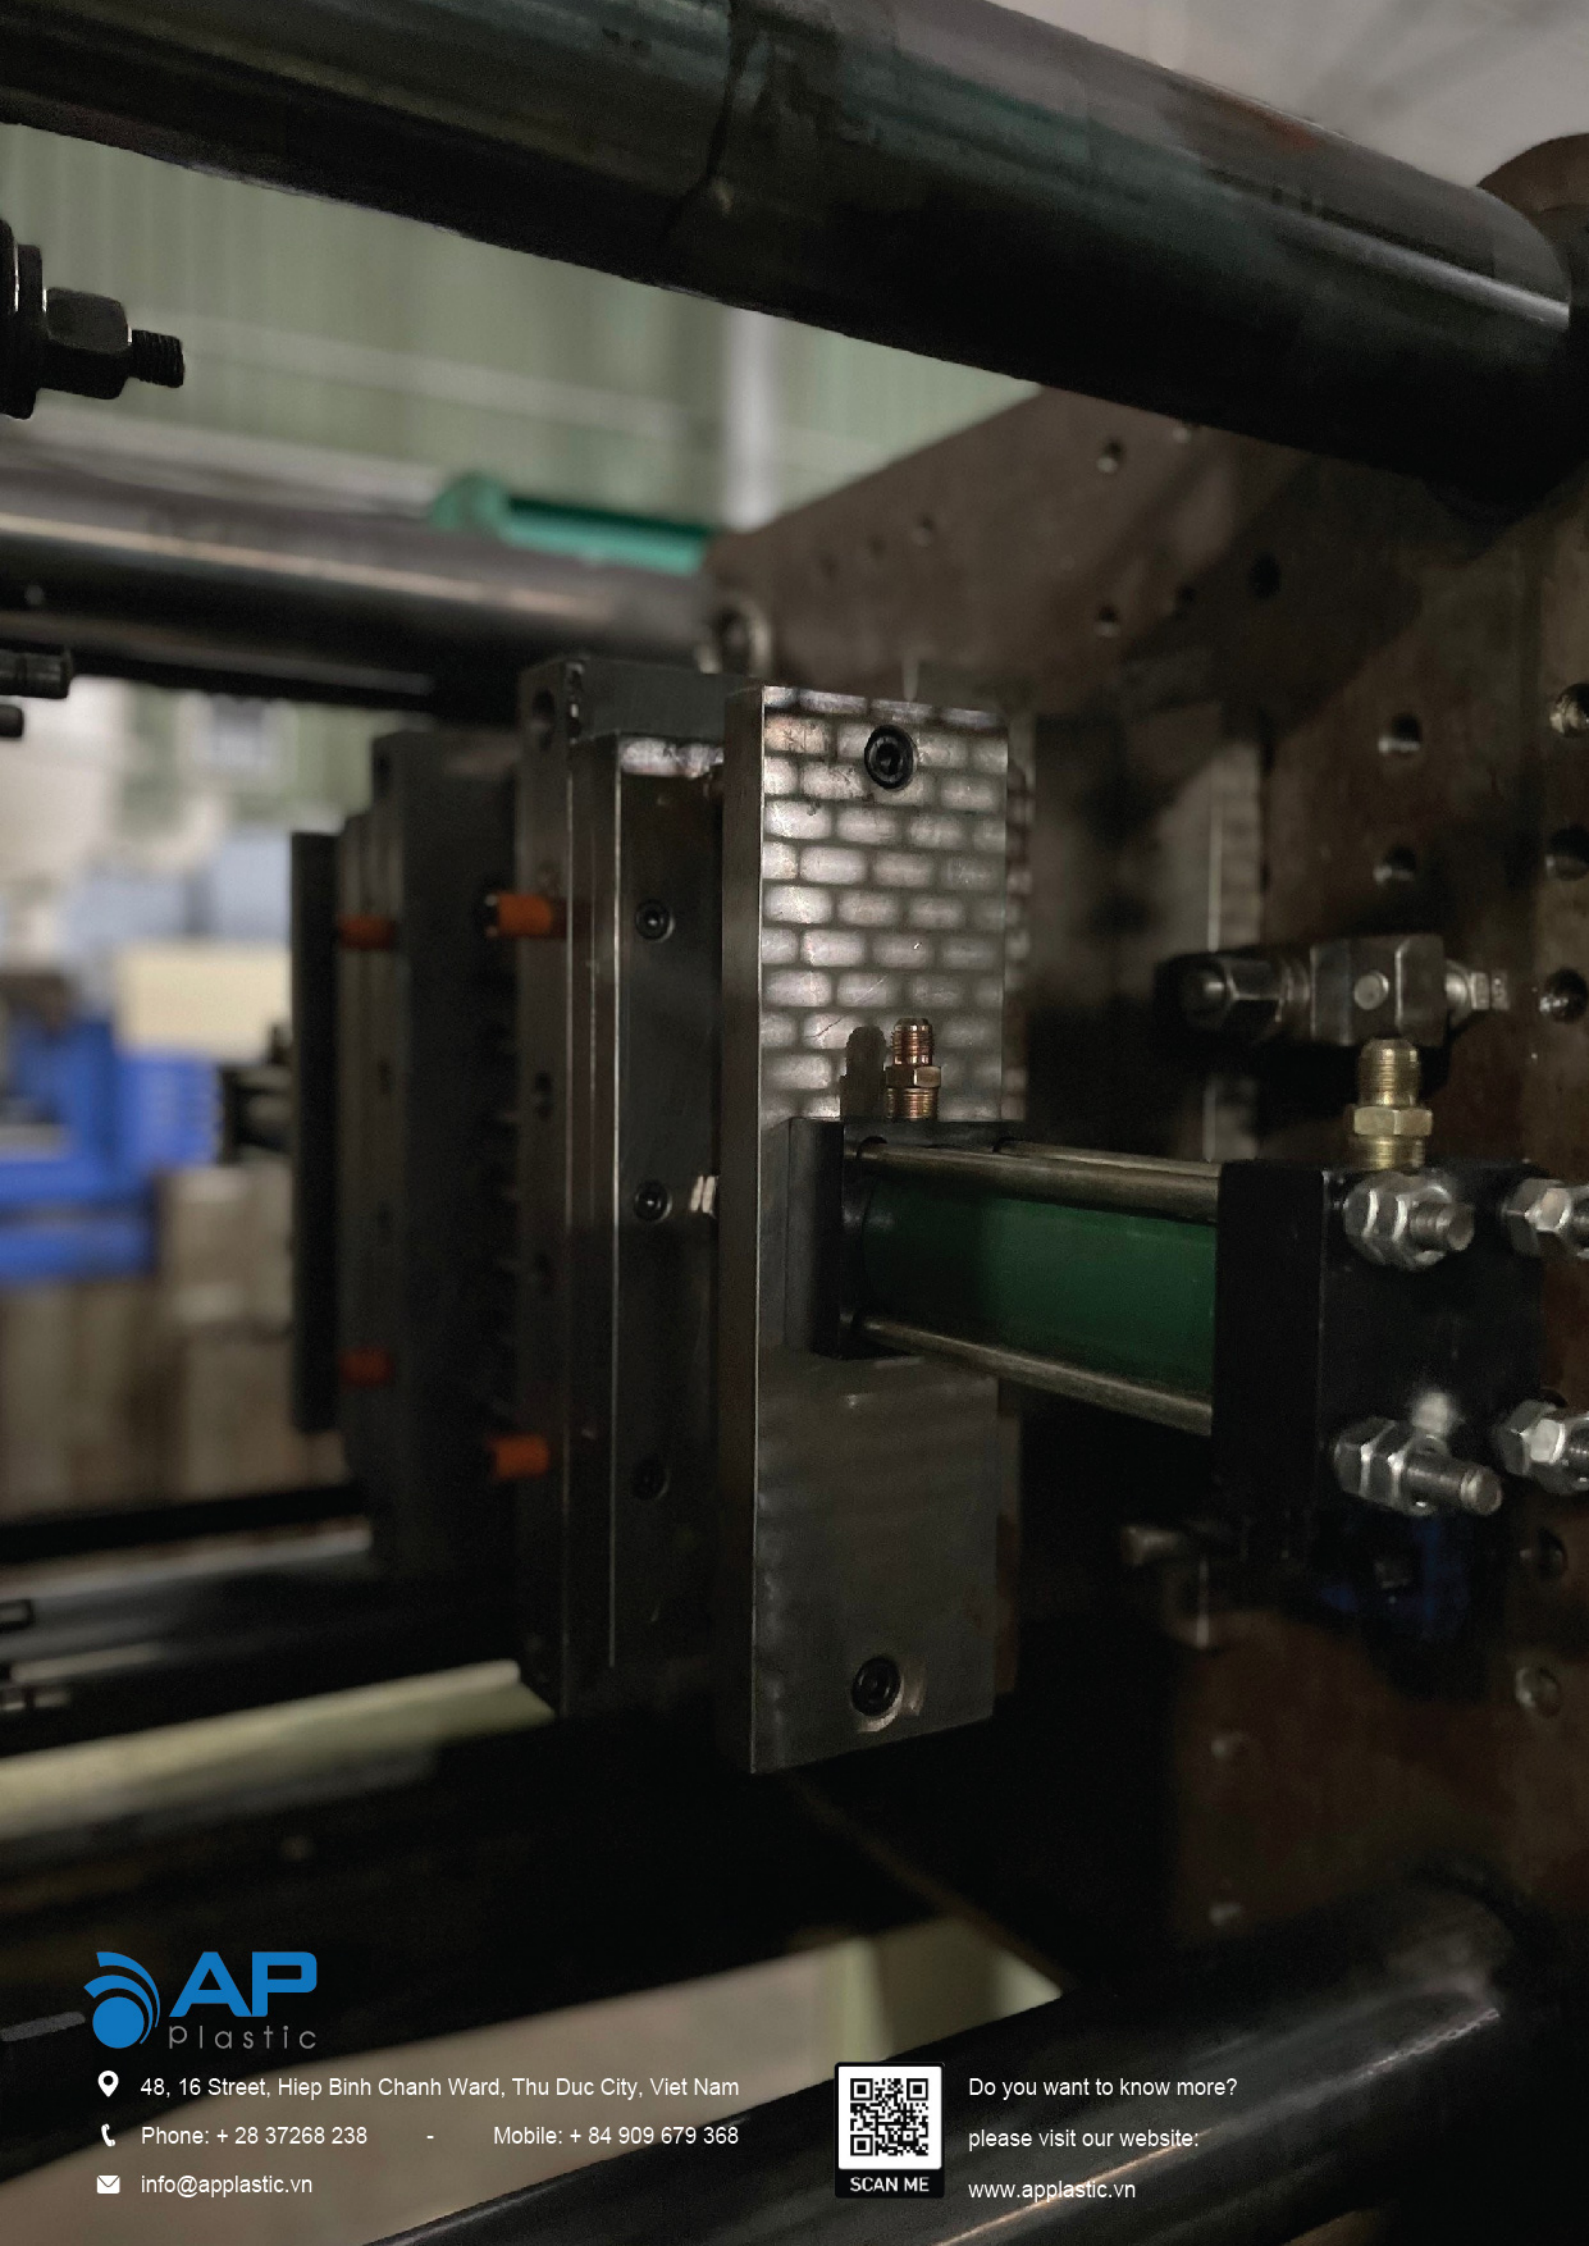

Planting basket products used for hydroponic agriculture meet food standards, ensure food safety standards. Products are reusable and provide a quick return on investment.

Toy:

Toy products are designed for children from 3 years old. Meets safety standards for children and is safe to handle, not sharp.
